

DOC 330.600 Prisons Compact

Elisabeth Kingsbury, JD, Policy Director

Comments Submitted 10/8/2021

DIRECTIVE:

- II. OCO suggests adding a section that directs facilities to prepare the incarcerated individual for transport. This should address the need to obtain 14-30 days of all medications to carry in the vehicle (see DOC 650.035), how legal mail will be transported, and how other property will be transported.

GENERAL:

OCO suggests differentiating between voluntary and involuntary out of state transfers throughout the policy to provide additional clarity to readers. While it appears that the policy addresses voluntary transfers, it is unclear whether the same procedures apply to involuntary transfers.

Additionally, OCO suggests articulating the circumstances under which an individual would be considered for involuntary out of state transfer as well as the criteria used by DOC to determine whether an involuntary out of state transfer is ordered.
